Professional Summary

Versatile and detail-oriented Full Stack Web Developer and Data Analyst with practical experience in building responsive web applications using modern technologies such as React, Node.js, PostgreSQL, and Firebase. Proficient in SQL Server and Power BI for data modeling, ETL development, and creating impactful dashboards. Skilled in backend development, RESTful API integration, JWT-based authentication, and deploying full-stack projects to cloud platforms. A collaborative team player with strong problem-solving abilities and a passion for continuous learning.

Technical Skills

Frontend: React.js, Vite, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, PostgreSQL, MySQL, Firebase Admin, JWT Auth, REST API, Stripe

Database/BI: SQL Server, T-SQL, PostgreSQL, MySQL, Firestore, SSIS, Power BI

General Tools & Technologies: Git & GitHub, VS Code, Vercel, Render, Netlify, Postman, Firebase CLI, Microsoft Excel, Trello, Visual Studio, MS SQL Server Management Studio, Power BI Service, Agile/Scrum

Projects

Netflix Clone – Full Stack React App

- Built a full-featured Netflix-style UI with movie browsing, genre filtering, trailers using TMDB API.
- Responsive interface with search functionality, user profile avatar, and login system.

Amazon E-commerce Web Clone

- Developed a full-stack clone with product listing, cart, checkout, wishlist, and Firebase Auth.
- Stripe integration for payments and Firestore for storing cart/wishlist/orders.

Evangadi Forum – Q&A Web App

- Implemented user authentication, question posting, answers, likes, and views tracking.
- Switched backend from MySQL to PostgreSQL for cloud hosting compatibility.

Power BI Sales Dashboard

- Designed dynamic dashboard to visualize regional sales KPIs, product performance, and trends.
- Performed ETL using Power Query and DAX for custom calculations.

Professional Experience

Freelance Full Stack Developer

- Built dynamic websites and dashboards for clients using modern frontend/backend stacks.
- Deployed web apps using Vercel/Render with secure backend APIs and responsive UIs.

SQL Server Database Support (Project-based)

- Created stored procedures, views, and complex SQL queries for data extraction and reporting.
- Automated workflows using SSIS for scheduled data imports and transformation.

Education

BSc in Applied Chemistry, Ambo University – July 2009

Certifications:

- Microsoft Certified: SQL Server DBA
- Microsoft Certified: Querying MS SQL Server
- Microsoft Certified: Power BI Data Analytics
- Full Stack Web Development – Evangadi Tech
